Question 1
Write a C# program that:

1. **Prompts the user to enter marks for three subjects.**
2. **Calculates the average marks.**
3. **Displays the average.**

Question 2
Write a C# program that:

1. **Accepts two numbers and an operator (+, -, *, /) from the user.**
2. **Performs the selected operation.**
3. **Displays the result.**

Question 3
Write a C# program that:

1. **Uses a loop to calculate the sum of numbers from 1 to 10.**
2. **Displays the final sum.**

Question 4
Write a C# program that:

1. **Prompts the user to enter the length and width of a rectangle.**
2. **Calculates the area.**
3. **Displays the result.**

Question 5
Write a C# program that:

1. **Prompts the user to enter a number.**
2. **Determines whether the number is even or odd.**
3. **Displays the result.**

Question 6
Write a C# program that:

1. **Prompts the user to enter their name and age.**
2. **Stores the values in variables.**
3. **Displays the entered information.**

Question 7
Write a C# program that:

1. **Uses a for loop to display numbers from 1 to 20.**
2. **Prints each number on a new line.**

Question 8
Write a C# program that:

1. **Prompts the user to enter the radius of a circle.**
2. **Calculates the area of the circle using the formula $Area = \pi r^2$.**
3. **Displays the result.**

Question 9
Write a C# program that:

1. **Prompts the user to enter a student's marks.**
2. **Determines whether the student has Passed or Failed (Pass mark = 50).**
3. **Displays the result.**

Question 10
Write a C# program that:

1. **Uses a loop to display the multiplication table of 5.**
2. **Displays the results from 5 × 1 up to 5 × 10.**
